

Intelligent Surveillance for Kangwon Land Casino, Korea

BOSCH

Invented for life

- **The very first and largest full HD IP surveillance system in Korea with more than 2,000 cameras installed**
- **Seamless integration with Genetec to offer a top class VMS solution**
- **“Once you experience the new video quality – you can’t stop using them!”**

As one of the most popular casinos in Korea, Kangwon Land Casino offers a total of 132 game tables and 960 slot machines. In addition, Kangwon Land also operates hotel, theme park, golf course, resort, and skiing ground, attracting millions of visitors from both Korea and overseas. After using analogue surveillance systems for more than 10 years, Kangwon Land decided to replace the legacy system with full HD IP surveillance solution.

Partnering with Samsung SDS, Bosch has been chosen to provide its IP video surveillance systems to Kangwon Land. More than 2,000 cameras are installed, which makes it the largest HD IP surveillance installation for Bosch in Korea. AutoDome Junior HD Fixed & PTZ series, FlexiDome HD, VIP-X1600XF and DLA1400 series are deployed, and Intelligent Video Analysis (IVA) technology is also used to

support operator's daily work. Moreover, Bosch IP system has been seamlessly integrated with Genetec platform, providing a top class VMS empowered by the leading intelligent imaging of Bosch front end devices. The iSCSI edge recording from Bosch IP cameras and encoders to the DLA, allows additional resilience against potential network outage. Integrated with Genetec, Bosch IVA also enhances the operational user experience with desirable results.

“With HD camera, we can capture high quality video instantly whenever dealer or floor-master requires. Once you experienced the new video quality – you can’t stop using them!” The customer says, “Bosch IVA also makes it easier for operator to monitor activities, even under challenging lighting conditions. Bosch edge recording and playback response time fully meets the requirement of analysts in their daily work.”
